**CurveSYS GmbH**

CurveSYS GmbH

Flurstr. 38 · 85402 Kranzberg + Office in Munich

Curvesys is a leading innovator in smart sensor technology, dedicated to developing advanced solutions that integrate seamlessly into various applications. Our commitment to excellence drives us to foster the next generation of engineers through our dynamic and challenging internship, thesis, and trainee programs.

CurveSYS GmbH
Flurstr. 38 · 85402 Kranzberg + Office in Munich

The phrase "CurveSYS" has a special meaning: What really sets CurveSYS™ sensors apart is their ability to „measure the relevant curve". This special property allows them also to adapt to irregular surfaces, movements and provide accurate readings in scenarios where conventional sensors fail. From monitoring complex vehicle bodies/chassis, machineries to integration into helmets, wearables, CurveSYS™ sensors are redefining what is possible

We are active in the field of:

» Smart textiles
» Material development
» Measurement techniques
» Electronics
» Substrates
» Print production

We offer

Embedded Engineer

We are seeking enthusiastic and talented individuals to join our team for internships, Bachelor/Master theses, and trainee programs focused on embedded engineering within the field of smart sensors. Participants will work closely with our experienced engineers, contributing to real-world projects and gaining hands-on experience in designing, developing, and testing smart sensor systems.

We support:

Internships
Bachelor/Master Theses
Trainee programs
