

Lunch & Learn Webinar :

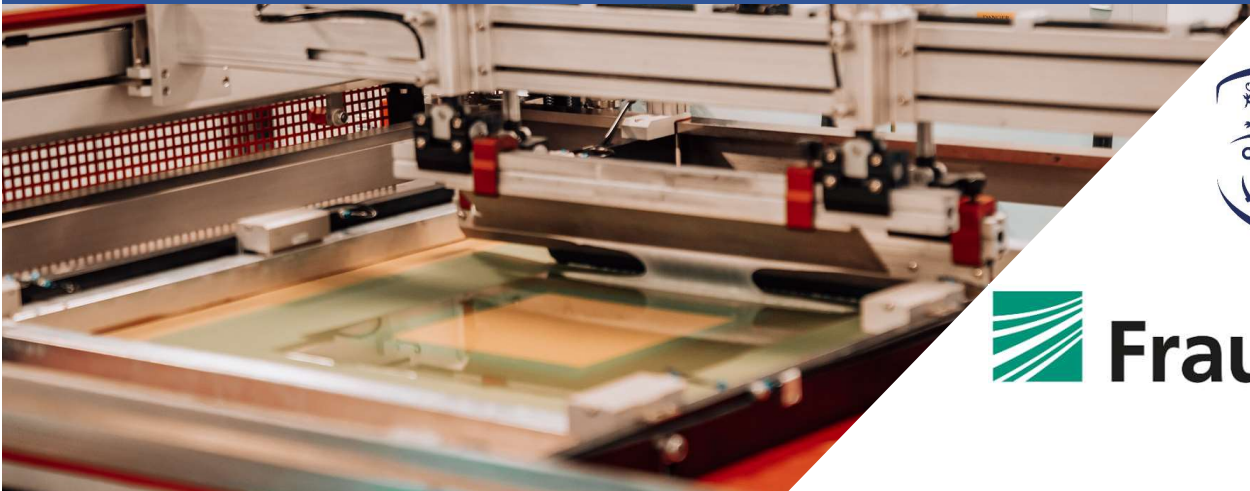

The future of screen-printed electronics

Invited Speakers:

Sarah-Jane Dunlop-Potts, Swansea University, UK

Linda Ney, Fraunhofer ISE, Germany

Friday 18th September 2026 from 12pm-1pm (BST) Online via zoom

Prifysgol
Abertawe
Swansea
University

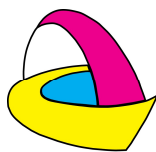

Fraunhofer
ISE

This webinar will provide a closer look into screen-printing, a mature, scalable and affordable manufacturing process for printed electronic devices. The session will include presentations by Dr Sarah-Jane Dunlop-Potts from Swansea University and Linda Ney from the Fraunhofer Institute for Solar Energy Systems, exploring the fundamental science of screen printing and recent applications in printed electronics

The webinar is hosted by the Welsh Centre for Printing and Coating (WCPC) and the Materials and Manufacturing Research Institute (M2RI) at Swansea University, in partnership with the South Wales Materials Association (SWMA), the IOP Printing, Graphics and Imaging Sciences Group and the OE-A.
